

ITALIAN PARTNER FOR WATER SOLUTIONS

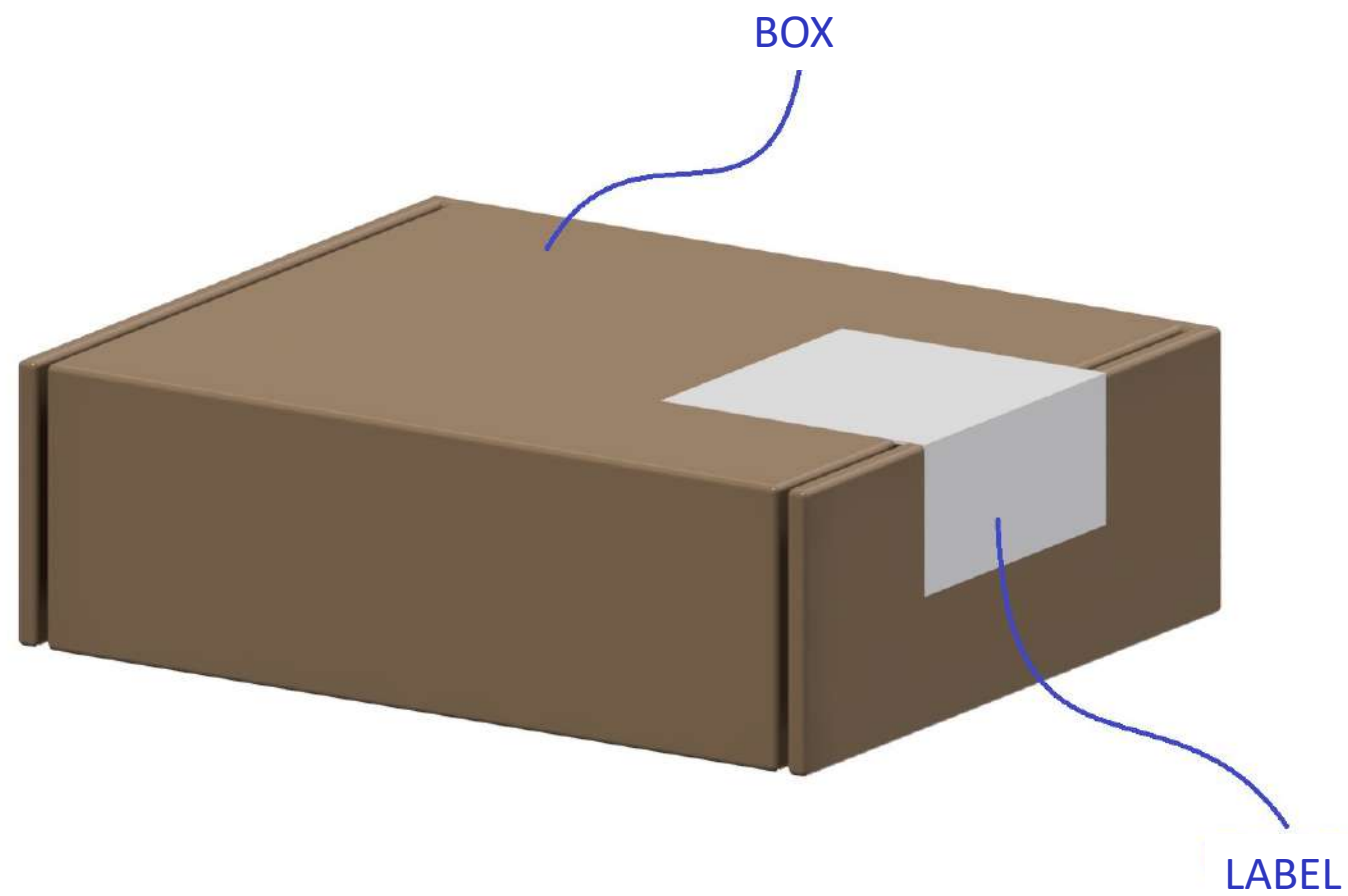

Sustainable Packaging

Over the years, Idral has worked to accelerating the change towards sustainability: from the continuous effort to reduce the environmental impact of our manufacture, to the packaging of our goods, we want to be as eco-friendly as possible.

We are gradually eliminating plastic from our products and packages and, we are using only sustainable and recycled materials such as FSC certified cardboard, recycled paper and biodegradable bags.

Furthermore, from now on, we will use the new packaging and labels, presented in this document.

FSC box

Our boxes are all made from FSC certified cardboard;

but what exactly does FSC mean?

FSC is an international NGO that works for the protection and correct traceability of forest-derived products.

In short, it ensures that the FSC-labelled product comes from a responsibly managed and controlled forest and supply chain.

Label

With the introduction of the new packaging, we are also presenting the new Idral label, made with 100% recycled paper.

The new label presents a lot of useful information.

Let's find out what...

ITALIAN PARTNER FOR WATER SOLUTIONS

Digital instructions.

The code scan will direct the user to the instruction manual web page.

In the manual, besides the products instructions, you will find the packaging disposal instructions and IDRAL's answers on the new environmental labeling requirements for packaging as for the European Directive 2018/851, concerning waste, and the Directive 2018/52, referring to packaging and packaging waste.

The image shows the packaging for an IDRAL 500.12 electronic basin mixer faucet. The packaging is primarily blue and white. At the top left, the IDRAL logo is visible with the tagline 'ITALIAN PARTNER FOR WATER SOLUTIONS'. A QR code is located at the top left, with a callout box labeled 'QR CODE MANUAL'. To the right of the QR code, the text 'ISTRUZIONI INSTRUCTION' is displayed, accompanied by a gear icon. Below this, a large image of the faucet is shown, with a callout box labeled 'Unified Water Label' and a green arrow pointing to a blue water drop icon, indicating a flow rate of '6 l/min'. The product model number '500.12' is prominently displayed, followed by the description 'MIX LAVABO A FOTOCELLULA CON ALIMENTAZIONE 6V' and 'ELECTRONIC BASIN MIXER POWERED BY BATTERY 6V'. A small image of the faucet is shown to the right. At the bottom, a barcode is present with the numbers '8 029384 187888' below it. To the right of the barcode, the text 'Quatità 1' and 'Quantity 1' is displayed.

Unified Water Label

«Unified Water Label» is the voluntary European labelling scheme initiated by tap and valve manufacturers to improve water consumption and the performance of taps, valves and shower heads.

If the product has the «Unified Water Label» it will be indicated in the specific field.

In case of absence, it will not appear on the label.
